NATIONAL HEALTH AWARD

INTRODUCTION

The First National Health Awards was conceptualized in 2014, with an aim to felicitate organizations and individuals for their contributions to the industry by innovating for increased efficiency, affordability, and improved performance of healthcare delivery at large. The National Health Awards have emerged as the definitive recognition for contribution to healthcare in the country over the years based on Innovation, Impact, and Sustainability & Scalability which forms the three criteria for evaluation.

Indian private Healthcare industry, as well as public Healthcare Industry, is growing at a tremendous pace owing to its strengthening coverage, services and increasing expenditure by public as well a private player, however, there is no dearth of challenges as India lags the world averages in key health indicators, health infrastructure, and human resources compared to the developed world, and hence organizations who through their innovative solutions are able to address these challenges, should be recognized and encouraged.

Keeping these imperatives in mind and continuing with the legacy to recognize the contributions of those who have set benchmarks of excellence in the healthcare space, and thereby helped the society at large, NNHSA is back with the sixth edition of its annual NHA.

NNHSA's NHA-2021 is scheduled on December 27, 2021, at India International Centre, Lodhi Road Max Muller Marg New Delhi.

Appreciation

- To facilitate organisations and Individuals that have:
- Shown operational excellence.
- Innovated for the betterment of the industry.
- Played an important role in social betterment.
- Increased efficiency and improved performance of healthcare delivery at large.
